INDEX

ACTH, blood estimation by a cross circulation technique, 650

Abortions, serum butanol extractable iodines, 105

Adolph, Wm. H. 495-7

Andersen, Per (see Jansen, Jan, Jr.)

Antiparkinson drugs, use of activating system for screening, 308

Aronsohn, Richard B. (see Williams, W. Lane)

Aring, Charles D., 191

Arthritis, rheumatoid, hemagglutination test in, 622

Austin, George M. (see McCouch, Grayson P.)

Bacteremia, experimental, in normal and irradiated rats, 56

Barron, Donald H. and **Battaglia, Frederick C.**: The oxygen concentration gradient between the plasmas in maternal and fetal capillaries of the placenta of the rabbit, 197

Battaglia, Frederick C. (see Barron, Donald H.)

Bauer, Heinz, Flanagan, John F., and **Sheldon, Walter H.**: Experimental cerebral mucormycosis in rabbits with alloxan diabetes, 29

Bechtol, Charles O., 669

Beeson, Paul B., 56, 160-1

Beeson, Paul B.: Factors in the pathogenesis of pyelonephritis, 81

Bercel, N. A. (see Knapp, F. M.)

Berman, A. J. (see Pribram, Karl H.)

Bloomer, William E., 578

Blos, Peter, Jr., 161-2

Blumer, George: Reminiscences of an old-time doctor, 1

Boernstein, Walter S.: Classification of the human senses, 208

Boisvert, Paul L., 671-2

Boisvert, Paul L., Brockett, Joan B., and **de Forest, Gideon K.**: Hemagglutination test in rheumatoid arthritis. I. Use of red cell pattern as endpoint in method, 622

Bondy, Philip K., 75-6, 121, 585, 668-9

Brodish, A. and Long, C. N. H.: Technique of cross circulation in rat which permits accurate control of blood volume transfers, 644

Browning, Henry C. and **Morton, David E.**: The arterial pattern in the hand, 37

Buxton, C. Lee, 156 7

Campbell, James B. (see Boyesen, Svein)

Cancer, and bacterial cells in same host, 501

Cardiac and hepatic lesions in mice, 515

Cardillo, Leo R. and **Bondy, Philip K.**: Metabolic effects of pancreatic hyperglycemic glycogenolytic factor (glucagon), 121

Cerebellar convulsive activity induced by strychnine, 419

Cerebellum, electrical activity in intact and decerebrated cat: role of pontine structures, 298

Cerebral blood flow, regional, method for estimating, 363

Cerebral cortex, lesions of, and temporal lobe syndrome, 342; temporal lobe suppressor, 265

Cerny, Joseph C., 498 9, 674

Circulation doctrine, and Joan D'Alos, 415

Cohen, Leonard A.: Activity of knee joint proprioceptors recorded from the posterior articular nerve, 225

Conditioning, hippocampus, 380

Convulsive activity, cerebellar, 419

Cortical lesions, postcentral and precentral resulting in contralateral skin temperature disturbances, 351

Cortical stimulation and the "searching" and "attention" response, 331

Cortisone, effects on transplantable mouse tumor and bacterial cells in same host, 501

Coulombre, A. J., 494 5

Cowles, Philip B., 155

Crelin, E. S., 497 8, 579

Cressy, Norman L., 72 3

Cross-circulation technique in rat, 644; estimation of blood ACTH by means of, 650

Cutler, John L. (see Gabrieli, Elemér R.)

D'Alos, Joan and doctrine of circulation of the blood, 415

de Forest, Gideon K. (see Boisvert, Paul L.)

Delgado, José M. R., Hamlin, Hannibal, and **Koskoff, Yale David:** Electrical activity after stimulation and electrocoagulation of the human frontal lobe, 233

Delgado, José M. R. and **Livingston, Robert B.:** Motor representation in the frontal sulci of the cat, 245

Diabetes, alloxan in rabbits and experimental cerebral mucormycosis, 29

Diencephalic mechanism of control of the urinary bladder of the cat, 285

Discs, ruptured thoracic, 522

Duran-Reynals, F.: On the parallel behavior of cancer and bacterial cells in the same host; experiments with cortisone and a transplantable mouse tumor, 501

Electrocardiogram, 404

Electroencephalogram, hippocampus, 380

Electron microscopy of poliomyelitis virus, 589

Electrophoresis, paper, study of rat submaxillary gland extract, 138; use in demonstrating antibacterial effect of saliva, 145

Events
